

Fiber Optical Light Guide

GLF1-1000-11.0

100-011435

- For halogen and LED cold light sources
- Low head generation on object
- Versions with several flexible arms
- Best transmission
- High flexibility and luminous efficiency
- Spot illumination
- Adaptable to cold light sources from all manufacturers
- Adaptable to customer needs

Technical Data	
Number of arms	1
Diameter active light guide	11,0 mm
Length	1000 mm
Light guide access	Standard 15 mm
Diameter light output	25 mm
Diameter light input	25 mm
Outer tube diameter	19 mm
Illumination	point-like
Beam angle	70°
Temperature input (light source)	max. 240°C
Ambient temperature	max. 80°C
Material tube	Steel spiral, PVC

Accessories
Focusing optics for light guides
Mounting systems
Adapter
